The AutoTURN Family

AutoTURN is the world’s leading vehicle swept path analysis software of choice for transportation engineers across the globe. With over 100,000 users, AutoTURN helps engineers streamline their design process, reduce rework, and increase productivity.

**AutoTURN Lite**

AutoTURN Lite is the introductory swept path analysis solution designed for small projects and simple environments. It is compatible with over 40 CAD platforms, including AutoCAD and Civil 3D.

**AutoTURN**

AutoTURN offers a comprehensive swept path analysis solution for medium and large projects. It supports over 120 countries and is compatible with a wide range of CAD platforms.

**AutoTURN Pro**

AutoTURN Pro is the advanced swept path analysis solution designed for complex environments and large projects. It supports over 100 countries and is compatible with a wide range of CAD platforms.

**AutoTURN Online**

AutoTURN Online is a web-based swept path analysis solution that allows users to create and analyze vehicle paths directly from their web browser.

**AutoTURN Revit**

AutoTURN Revit is an add-on to Autodesk Revit that provides a swept path analysis tool for Revit users, allowing them to perform all of the swept path analysis in the Revit environment.

Transoft Solutions develops innovative and easy-to-use software for transportation professionals. Whether in-office or on-the-go, our cost-effective solutions provide you with a convenient and affordable way to get the best steep path software for your needs.

**Vehicle Libraries**

AutoTURN offers the most comprehensive vehicle libraries in the industry and is compatible with the most widely-used CAD software. The design vehicles are based on the standards and guidelines of the following countries:

- North and South America
- Asia Pacific
- Europe, Middle East and Africa
- Australia | Cambodia | India | Indonesia | Israel | Japan | Korea | New Zealand | Philippines | Taiwan | Vietnam
- Netherlands | Norway | Poland | Russia | South Africa | Spain | Sweden | Switzerland | UAE | UK
- Austria | Czech Republic | Denmark | Finland | France | Germany | Hungary | Ireland | Italy | Netherlands | Norway | Poland | Russia | Spain | Sweden | Switzerland | UAE | UK
- Brazil | Canada | Mexico | Peru | USA

**COMPATIBILITY**

The AutoTURN Online software is compatible with the following CAD platforms:

- AutoCAD 2010 – 2019 (except AutoCAD LT)
- Autodesk AutoCAD Civil 3D 2010 – 2019
- Bentley AECOsim Building Designer V8i, CONNECT
- Bentley® PowerGEOPAK V8i, PowerInRoads V8i
- Bentley® PowerDraft V8i, PowerCivil V8i
- Bentley® MicroStation V8i, CONNECT
- Bricsys® BricsCAD (Pro and Platinum) V16 – V18
- Bentley® AECOsim Building Designer V8i, CONNECT
- Bentley® PowerGEOPAK V8i, PowerInRoads V8i
- ZWSOFT ZWCAD 2017 – 2018
- Autodesk AutoCAD Inventor LT 2013 – 2019
- Autodesk AutoCAD Inventor LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019
- Autodesk Revit LT 2013 – 2019

**THE EXTENDED FAMILY—Not using a CAD platform?**

Try our platform agnostic, web-based swept path analysis solution or our Revit compatible solution.

**ASK US ABOUT OUR TRAINING OPTIONS**

Transoft Solutions provides instructor-led online and classroom training sessions. For more information on these training options, please visit our website or contact us.

**ABOUT AUTOTURN SOLUTIONS**

Transoft Solutions is a technology-driven software company that provides transportation engineers with powerful and easy-to-use swept path analysis software. With over 100,000 users in more than 120 countries, Transoft Solutions has helped engineers streamline their design process, reduce rework, and increase productivity.
